Over 35 years in livestock marketing!

*Dear Cattle Friends,*

WOW! What a difference a year makes. Winter of 2023-2024 has been a welcome site compared to a year ago. The dollars and time saved on feed and snow removal has been blessing. A nice relief considering all our other inflated production costs. With cattle numbers at record lows and predicted to be even lower as we move into 2025, it's safe to say that cattlemen and women will see good prices for the next couple of years. With abundant feed stocks and reduced feed costs projected throughout 2024, what better time to upgrade your genetics and focus on the most profitable cattle. With record weigh up prices, it's easy to upgrade without a huge investment.

Thomas Ranch continues to strive to help make our customs more profitable. We have been working for the last several years with 44 Farms and Prime Pursuits to develop a northern supply for angus genetics that will sire feeder cattle suitable for the Prime Pursuit supply chain. As Prime Pursuits continues to grow, so does the need for high quality, angus sired, northern calves. We recently came into a collaboration with 44 Farms; Thomas Ranch Black Angus bulls will sire feeder cattle that will qualify for the Prime Pursuits program. This program pays a nice premium for NHTC calves and provides individual carcass data back to the producers. If this is something that is of interest to you, please visit with Troy to get more details. We are excited about this opportunity for not only Thomas Ranch but for you, our Customers. The bulls and heifers are all developed here at the ranch under the guidance of Dr. Dan Herold from Famo Feeds. We strive to grow these cattle and not fatten them. Our goal is to have these bulls remain sound, problem-free and to become long term genetic contributors to the herds they go into. They are fed a 50 and 52 neg ration with the goal of gaining 3 to 3.25 pounds per day. The ration consists of ground hay, alfalfa, silage, distillers and earlage along with a protein supplement with a chelated mineral package.

In the heifer division, we kind of switched gears this year and allowed the Innovation Team to dive deep into our replacement pen. These females are from the front end of the keeper pen and are cutting edge genetics. Never before have we opened the gate and sold off the front end of these heifers. These heifers have undergone a prebreeding exam, had all their shots and are ready to breed.

As everyone knows, it takes a lot of man hours to put together a sale like this. We are Blessed to have some of the best people working beside us here at the ranch, Mardy, Laura, Bill, Andy, JW, Jady and Danielle. There are a host of others that come and help us here at the ranch when we are doing various projects. We can't thank you all enough.

We will again be doing a video auction with CCI.LIVE. Videos will be available on all bulls by April 1, 2024. Thomas Ranch guarantees sight unseen purchases, volume discounts and an unconditional 1st breeding season guarantee. A beef lunch will be served starting at 11:30 am and the Angus bulls sell at 1:00 followed by Charolais, Simmental and Red Angus, and finish up with an elite group of replacement heifers. Our goal here at Thomas Ranch is to provide our customers with long lasting genetics that you can be proud of and will have an impact on your herd and bottom line.

# INNOVATION

— AgMarketing, LLC —

## *Ladies and Gentlemen,*

As most of you who will open this book and take the time to browse the content know, as beef cattle enthusiasts we have experienced the ride that every cow-calf operation has needed for the past decade. The marketplace is absolutely ablaze as we have witnessed some of the highest dollar values bid and received for all weight classes of feeder cattle across the nation. It is with great enthusiasm and optimism that we welcome you to the 2024 offering at Thomas Ranch. We are certain that you will find this offering to be trendsetting across all breeds offered as you study the pedigrees, the data, the photos, and the videos, we are certain that you all will be very impressed by what Troy, Veabea, and the crew have assembled for your appraisal.

With an intense marketplace, seedstock providers must always be prepared to offer proven, next-generation genetics that continue to meet the stringent demands of the beef business. Genetic advancements through selection and genomics are essential for a seedstock provider to be deemed relevant and insightful for their respective customer base. The ownership/ leadership for TR has had the plan in place for the past decade as they have continued to improve the predictability, performance, and carcass merit that the industry demands. Sire acquisition and networking have been at the forefront of the daily approach to their seedstock business. The Thomas family has built a relationship with 44 Farms by tying into some of the industry leader's herd sires and have now achieved status within the branded, Prime Pursuit, program to assist their customer base with the marketing endeavors of their respective feeder cattle sired by TR or program certified sires. The doors have officially been opened and the opportunity for you to get on the train is there for you to take advantage of to potentially experience the greatest premiums known in the business today.

Certainly, the Angus program has had the most effort placed in terms of building a framework of integrity and longevity, but the Red Angus, Charolais, and SimGenetic cattle have had the same approach to genomically and physically enhancing the product. We know that you will find this to be the very best that has ever been offered on the second Tuesday of April at 18475 Capri Place, north of Harrold, SD. It is of our opinion that the merit, power, shape, skeletal integrity, and genomic profile of the entire offering are vastly improved from the years previous. The female section of this sale will feature a hand-selected, elite top cut of females that have never been offered before at TR. There will be an opportunity for all beef cattle enthusiasts to invest and experience forward progress with the most up-to-date and current genetics offered throughout both breeds supported by genomics and a new procurement program made available to those who do business with Thomas Ranch.

We are beyond confident to stand behind the cattle, they represent the program well and those who invest will reap the benefits of the strength in the infrastructure of the marketing network that now comes with the improved product. Please feel free to reach out to any of the Thomas Ranch team or Innovation AgMarketing crew for any assistance with information or purchasing your next herd sire or donor female. We look forward to seeing every one of you on April 9, 2024 for a trendsetting seedstock experience and great ranch hospitality.

Thank you for your interest,

*Graham Blagg    Jered Shipman    Tim Anderson*

## *Our Commitment to Quality Bulls*

### **BREEDING SOUNDNESS EXAM**

All bulls will have passed a fertility test before delivery. Any bull picked up sale day is guaranteed to pass a semen test. Thomas Ranch will pay for semen test costs. Scrotal measurements that are printed in the sale catalog were recorded on March 4, 2024.

### **BREEDER'S BULL GUARANTEE**

Bulls selling for more than \$4000 are guaranteed for 90 days from first turnout against breeding injury. If a replacement bull is available, he will be provided. If a replacement bull is not available, credit will be given in next year's Thomas Ranch Bull Sale. Credit will be for the purchase price less volume discounts and salvage value of the injured bull to be used for the purchase of one replacement bull. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made prior to Oct. 1, 2024. This is not a mortality insurance policy.

### **SEMEN INTEREST**

Thomas Ranch will retain 1/3 revenue sharing semen interest in all bulls selling in this sale unless otherwise stated. Buyer receives full possession and 100% salvage value.

### **HERD HEALTH**

*Herd Health by Dr. April Schilder, Prairie View Vet Clinic, Highmore, SD*

- All bulls and heifers were vaccinated at turnout time with BoviShield Gold 1 Shot, Vision 7, Autogenous Pinkeye, and poured with Bimectin.
- Preconditioned mid- August with BoviShield Gold 1 Shot, Vision 7, Autogenous Pinkeye, Autogenous Histophilus/Mycoplasma, and pour with Bimectin
- Weaned in October and boosted with BoviShield Gold 1 Shot, Vision 7, Autogenous Pinkeye, Autogenous Histophilus/Mycoplasma, drenched with Synanthic, and repoured with Bimectin
- Bulls repoured in December with Premectrin CDS and given injectable Dectomax
- Bulls & heifers were torched and repoured with Protectus the second week of February.
- Heifers were bangs vaccinated on 12/13/23
- Heifers given Bovi Shield Gold FP 5 VL5 and Anthrax and repoured March 15, 2024.

Over 35 years in livestock marketing!

## **DELIVERY**

Thomas Ranch will offer free delivery on bulls beginning May 1, 2024 to South Dakota and surrounding states. After May 1, 2024 bulls left at the ranch will receive a \$5 per day feed charge from Thomas Ranch. Bulls left between the sale and May 1 will be fed free of charge. We will assist in finding affordable and reliable delivery options to other parts of the country for bulls and heifers and may be able to arrange for cattle to be shipped to a central location where you can meet a truck.

## **EPD's & ULTRASOUND DATA**

EPD's printed in this catalog for the Angus offering were current as of March 7, 2024. Updated EPD's will be available on sale day. An updated, sortable spreadsheet will be available online April 4, 2024.

## **TERMS**

The terms of the sale are cash or check payable at the sale facility unless satisfactory credit arrangements have been made prior to the sale. The right of property shall not pass until after settlement is made. All settlements must be made with the clerks of the sale before any cattle will be released or transferred. All cattle sell under the standard terms and conditions of their respective breed associations. All major credit cards will be accepted with an additional 3.5% buyer's premium.

## **SIGHT UNSEEN PURCHASE GUARANTEE**

Buyers unable to be present may contact us for assistance. Bulls sent on order by management will be guaranteed to meet the buyer's acceptance. Buyers may also contact the Auctioneers, ring staff, or any authorized representative listed in the sale catalog for assistance. Buyers may also register through CCI.Live to bid during the auction.

## **ANNOUNCEMENTS**

Errors discovered in the catalog will be corrected by announcements from the auction block at sale time, and such corrections will take precedence over the printed material in the catalog.

## **VOLUME DISCOUNT**

5% on 5 or more bulls purchased, and 10% for 10 or more bulls purchased. Any credits will be deducted before volume discounts are figured.

## **INSURANCE**

Mortality insurance will be available sale day through Martin-Trudeau Insurance. Any deviations from the above statement will be worked out between the buyer and Thomas Ranch.

## **ACCIDENTS AND LIABILITY**

All persons attend the sale at their own risk. The seller and sales management assume no liability, legal or otherwise, for any accidents occurring in, on, or about the premises.

## **VIDEOS**

Videos will be available at [www.thomasranchcattle.com](http://www.thomasranchcattle.com) and CCI.Live around April 1, 2024. Videos done by Focus Marketing Group, Kyla Fawcett.

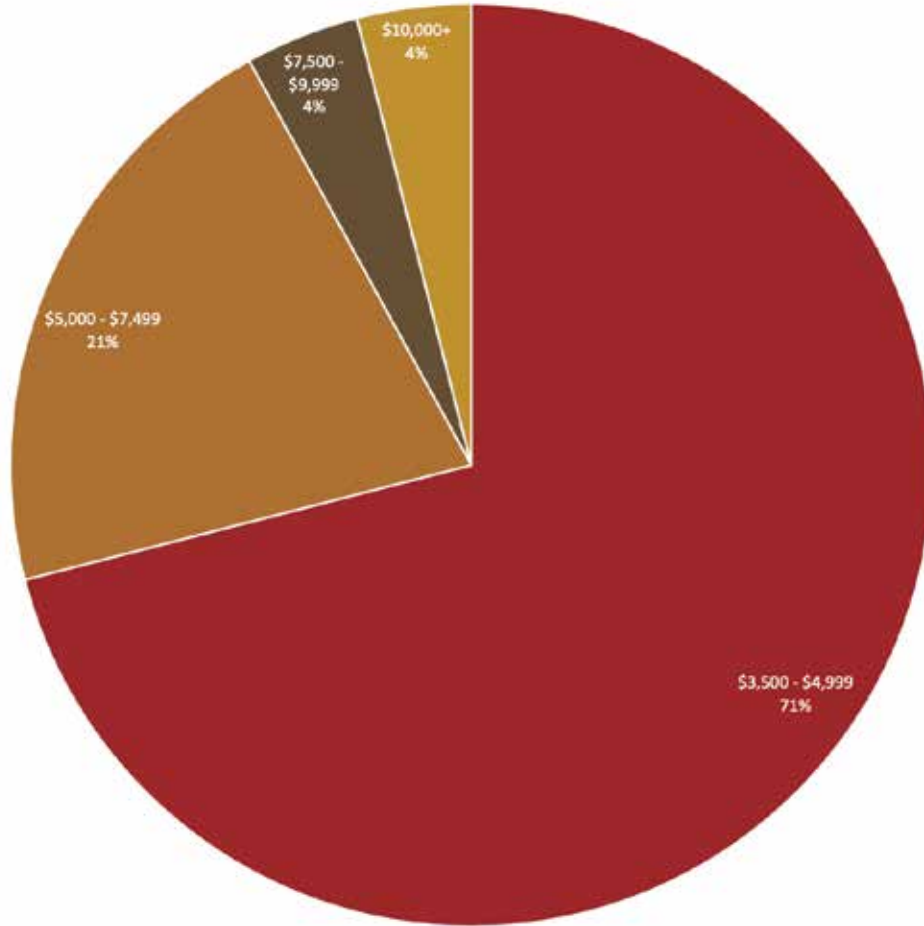

## **PHOTOGRAPHY & CATALOG PRODUCTION**

*Quality Bulls In Every Price Range*

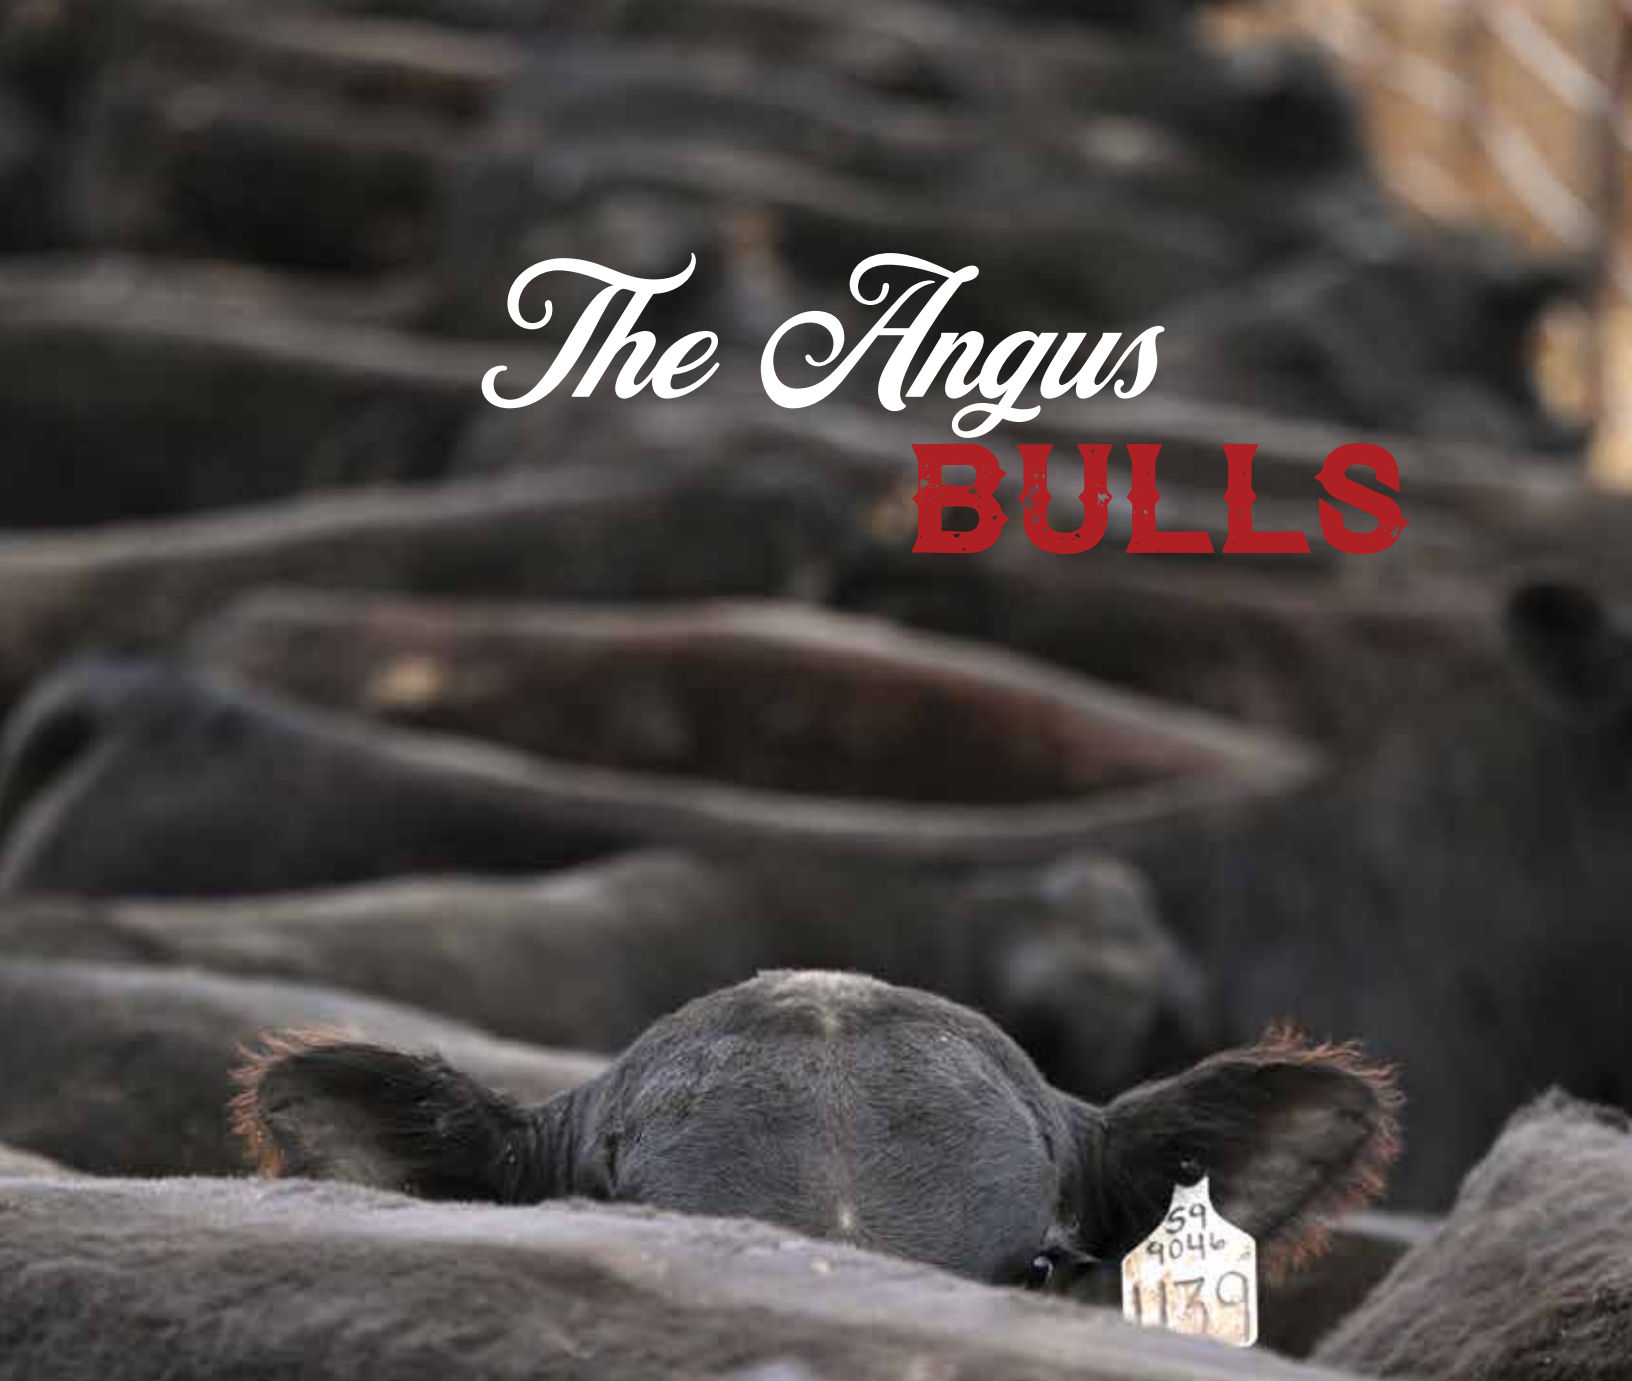

# 2023 THOMAS RANCH BULL SALE REGAP

- \$3,500-\$4,999 = 71% of total bulls sold
- \$5,000-\$7,499 = 21% of total bulls sold
- \$7,500-\$9,999 = 4% of total bulls sold
- \$10,000+ = 4% of total bulls sold

# The Angus BULLS

Below you will find the data averages for the Angus bulls. We have provided the Angus breed-wide average as well as the average of the data of the Thomas Ranch bulls presented in this offering.

### Angus Breed-Wide Non-Parent Averages

CED	BW	WW	YW	Milk	Marb	REA	\$M	\$W	\$F	\$B	\$C
6	1.2	63	112	27	0.69	0.65	63	59	88	144	250

### Thomas Ranch Angus Bulls Averages

CED	BW	WW	YW	Milk	Marb	REA	\$M	\$W	\$F	\$B	\$C
7.6	1.3	78	135	28	0.66	0.66	66	73	95	148	258

You will notice each bull in the offering carries the Angus GS logo. This is because the accuracies of their EPD profile is enhanced by a genomic test that was created by Angus Genetics and powered by Neogen GeneSeek. Each marker is intentionally chosen to build on the Angus genomic research database and drive the breed into the future. It offers maximum accuracy for genomically enhanced EPDs at great value, so you can test heifer and bull calves to reap the benefits of faster genetic gain. For more information about the advantages of genomically enhanced EPD's and the advantages it gives you in your bull selection then check out [angus.org/agi/angusGS](http://angus.org/agi/angusGS) - For Angus. By Angus.

The Certified Angus Beef® Targeting the Brand™ Logo will identify animals with genetic predictions focused on carcass quality. The logo requirements can be met when the Marbling EPD is a minimum of +.65 and Grid Value (\$G) is a minimum of +55. Sire-identified carcass data from more than 8,600 records in the American Angus Association database show these minimum thresholds for Marb and \$G achieve an average of 50% Certified Angus Beef® acceptance.

**E & B WILDCAT 9402 Sire of Lot 1**

- TR Wildcat 3099L stands out as one of the most unique breeding pieces ever bred in the Thomas Ranch Angus program. This outlier has been special through every stage of development, and quickly sorts himself to the forefront of the offering when it comes to phenotypic excellence.
- The direct son of E & B Wildcat 9402 sets the standard for type and kind, boasting a premier combination of powerful shape and boldness, along with a structural package that starts durable at the ground and remains flexible throughout. His profile view is perfectly balanced and correct, viewed from behind reveals loads of mass and product, he sets the ideals for us when it comes to how we want them built.
- He stems from a young Woodhill Relevance female that represents the newest generation of the prolific TR Ms Kay cow family, one that is a division of the Katinka tribe that is so profound for the program. The cow power in support reads generations long with quality.
- He equates on paper to deliver improvements for both carcass quality and yield, with top 15% Marb and top 10% RE traits. When it comes to profitability indexes, he sports an impressive resume that includes top 25% \$W, top 20% \$F and top 10% \$G, \$B and \$C.
- You too can rely on the service of TR Wildcat 3099L to supply pounds to the equation, as his genomically enhanced EPD's tabulate with projections for top 20% WW, top 15% YW & top 10% RADG.

- TR Hometown 3055L should be a leading option for those searching to quickly increase the profitability and marketability of their calf crop. He brings impressive growth and carcass tabulations to the table, and across the board sports an elite genomic profile with 13 individual traits ranking in the top third of the breeds registry, along with all 6 of the dollar indexes ranking top 20% or better.
- In an effort to help drive our customers cowherds towards the most profit, it's the genetic package that these G A R Home Town sons offer that promote them to being a very logical choice.
- As the industry continues to place pressure on carcass quality and yields, you can trust that you are investing in the future of your cowherd with this stud that reads progressive for both. He charts top 3% Marb, top 15% CW, top 25% RE and top 2% for both \$G and \$C.

- TR MR Resilient 3446 stands out from the crowd from just a pure pounds and performance standpoint. He is a powerfully built, rugged structured and wide ended beast.
- He trends curve bending with ability to sire both reliable calving ease that turns to impressive performance with every step of maturity. He projects to sire cattle that will come light but motor towards marketability size.
- He came to the weaning pen with close to 750 lbs. to record an impressive 111 WWR among his peers. His high production dam is a shining example of what the K C F Bennett Absolute daughters are capable of in production.
- His EPD profile has highlights across the board including top 15% YW, top 10% WW, SC, HP, Claw, HS, RE and \$C, top 2% \$W, and top 1% \$M.

- An absolute standout of the offering if your selection pressure is focused around adding massive amounts of pay weight to the cowherd.
- This E & B Wildcat 9402 son tabulates to sire as much growth and performance as any herd bull prospect to sell on April 9th. He ranks among the elite 1% of the registry for WW, YW, CW, \$W and \$C. He offers a stockman the opportunity to employ industry leading growth traits without sacrificing phenotypic quality and longevity traits.
- Incredibly, he still offers the peace of mind of siring favorable calving ease and birth weights, reflected by his top 20% CED and top 30% BW rankings. His own raw data set reflects the same impressive combinations of calving ease and growth with an unassisted 78 lb. birthweight and just shy of 750 lbs. when he came to the weaning pen.
- He is backed by the Meadow Brook Rita 7131 matron that stems from some of the nation's most coveted Angus genetics. His maternal granddam, Deer Valley Rita 36113 has built quite the resume to her name. She is most famously recognized as the dam of Deer Valley Growth Fund and Deer Valley Wall Street. Other maternal sisters to 7131 include the \$90,000 valued EPF Rita 7515 and the \$60,000 EPF Rita 7541.

KR RALLY Sire of Lot 5

- For several sale seasons the sons of KR Rally have been admired by stockmen that place value in skeletal quality, added shape and eye appeal. TR Rally 3077L stands up as the leading son of KR Rally for the 2023 born crop of sons, and is undoubtedly one that will be easy to find in the sale pens from a pure power and eye appeal standpoint.
- While his quality on the outside of the hide is undeniable, you will find that he comes with a genomic package that tabulates for impressive predictions for siring progeny who have added growth. A dive into his genomics will reveal his top 5% WW and top 10% YW predictions. He recorded a 113 WWR among his contemporary group and continues to mature with performance.
- His mature aged Flag Impression 10062 sired dam has earned her keep on the ranch, and has been a trident in production, recording a 366 day calving interval and a 102 weaning weight ratio, both on 6 head.

- TR Supply Side 3262L is a dense bodied creature that comes loaded for bear with all the substance and beef business product that one can ask for. He comes with the support of a prime aged Basin Payweight 1682 daughter that is working her way towards a donor promotion with each calf she brings to the weaning pen. To this point she records an average 109 WWR on 3 head and in turn does this while maintaining a 363 day calving interval. She stems from the legendary Katinka cow family that has been a reliable source of maternal power at the Thomas Ranch.
- The son of 44 Supply Side 9389 ranks in the top 5% for WW, YW, and Milk, top 10% \$C, \$F, CW and RADG, along with top 15% for HP and \$M. Here is a herd bull that offers immense value across the board when it comes to adding profitability to the bottom line of the rancher.

- There are no doubts about the favoritism that cowboys have for these Deer Valley Growth Fund sired stock. It is easy to understand why too when you consider the overall completeness in phenotype and numeric values that they come with. This sire has been used extensively across the land with very similar and equal results across multiple programs.
- This lead off son of the group is a favorite because not only is he dense and robust in his build but he sports a genomic package that is hard to poke a hole in. While he reads with sleep all night calving ease, he too projects to sire cattle that will come very heavy to the weaning pen and hang for profits on the rail. He is the definition of all-rounder!
- He ranks in the top 2% for CED, top 4% BW, YW, top 25% WW, top 15% CEM, and top 10% RADG. You too will find for top 4% Milk and \$W rankings.
- The flip from his 61 lb. actual birth weight to his stunning 731 lbs. at weaning that records a WWR of 109 is more than credible.

CED	BW	WW	YW	Milk	Marb	REA	\$M	\$W	\$F	\$B	\$C
10	1.1	80	140	32	1.2	0.49	49	77	77	154	249

- TR Iconic 3075L truly lives up to the name, he is certainly one of the most impressively built bulls to sell on April 9th. You will find him to be equally as impressive in the sale pens as he was on picture and video days, as he carries himself with pride and dominance.
- For a stockman that requires low stress and minimal maintenance calving but still demands the cattle have added pounds come marketing time then pay serious attention to this stud. The curve bending nature of his growth pattern allows for the best of both worlds!
- After you experience his calving ease, you can only begin to expect pounds, mass, and overall performance because they will not be in short supply with the progeny of this powerhouse stud. He recorded an impressive WWR of 113 and genomically offers top 10% WW and top 15% YW predictions.

8	0.7	76	129	42	0.43	0.41	78	86	95	127	243

- Heavy doses of growth and performance will be the result of TR Accomplishment 3066L's service. It is hard to question his growth potential when you take into account the actual performance data that he recorded, with an impressive 117 WWR off his first calving dam.
- He offers predictions for very acceptable calving ease and birthweights, while swinging towards top quarter of the breed or better WW and YW figures.

CED	BW	WW	YW	Milk	Marb	REA	\$M	\$W	\$F	\$B	\$C
8	0.8	89	155	23	0.3	0.64	62	78	111	143	247

- The first sons of TR Sully 0073H sell in 2024 and they exceed expectations!
- TR Sully 3093L offers a lot to the business with some extra length and density. He's wild and big spread in his performance game as well ranking in the top 3% for WW, 3% for YW, and maintains a sensible top 35% ranking for CED. Continue this with top 15% YH, top 10% MW, top 15% MH, top 15% Angle, top 10% CW and then excellence with his top 10% \$W and top 15% \$F index values.
- Shear balance in the profile is all one can say and with his adjusted raw data it becomes more evident of his total value with a moderate 78 lb. birth weight and huge WWR of 118.

**LOT 12**  
**TR MR GROWTH FUND 3452**

- The Deer Valley Growth Fund sons continue to be a go to choice of progressive cattlemen and women! This year we predict to be the same because the 2023 crop of sons continue in the trend of high quality beef bulls that offers advantages across the board..
- TR MR Growth Fund 3452 will add pounds in just about every breeding scenario he enters, he is bold and massive in his muscle design, with extra top and hind quarter shape. If you need to add substance and dimension then this stud will be one to mark for inspection.
- He weaned off of his TR Validate A3005 dam with 736 lbs. of pay weight and genomically is forecasted to sire the same impressive growth trend with top 4% WW and top 3% YW rankings.

**TR MR ABSOLUTE 1411**  
*Maternal Brother to the Dam of Lot 12*

**LOT 13**

- This Deer Valley Growth Fund son offers a program legit performance value rankings that sit amongst the top 5% for WW, top 10% for YW, and an elite top 1% \$W.
- With 3.39 lbs. of growth per day towards weaning, he went to the weaning pen with 712 lbs. to ratio a 106.
- His role model Mill Bar Hickok 7242 sired dam records an average 103 WWR on the four head she has raised to date.

- TR MR Stellar 3417 presents himself as a very versatile option for an operation that is searching for a herd bull that can deliver a performance driven set of genomic predictions, real world performance and a balanced phenotype that would generate female progeny that are built with longevity and maternal in mind.
- This Sitz Stellar 726D son is built with a very easy fleshing body type, easy on the eyes profile from the side and outstanding foot quality.
- There is cow power on both sides of the pedigree here, his paternal granddam, SITZ Pride 200B was a \$112,500 sale feature of the 2021 Sitz Angus Female Sale, and on the bottom side you will notice an upstanding Mogck Bullseye daughter that is a reliable producer of quality.

9	1.5	76	133	30	0.59	0.61	79	77	109	158	284

- The freshman class of Schiefelbein Goldfinger 60 sons were well received last year, and this group follows the trend of high growth, high performance cattle that will inject serious growth.
- TR Goldfinger 3316L carries a data set that reads for big improvements in growth and performance. He sports figures that sit among the most elite 1% for weaning weight and yearling weight and top 3% RADG. It's safe to expect he will add to your bottom line if you sell your calves by the pound.
- He weaned heavy and recorded a 112 WWR.

- You may be surprised to find that TR Supply Side 3139L is one of the younger bulls in the offering, but even so he has always been a powerhouse member of this calf crop. Even from early on, he has made his presence known as the potential generator of serious performance and growth. Do not question his maturity and readiness for cows though as he scrotals with 37.5 cm.
- Come sale day that notion continues as you will find an absolute beast in the sale pens carrying tag 30. He weaned off of his Prairie Pride Next Step 2036 dam with an impressive 673 lbs. of pay weight to ratio a 113. Genomically this trend is mirrored with predictions of top 20% weaning weight and yearling weight.

- TR Cavalry 3186L is a performance driven herdsire prospect that is quick in his growth trend, favorable in his maturity pattern and masculine about his head and neck design.
- He stems from the carcass king, 44 Cavalry 0717, a sire that has built a reputation based on incredible improvements for REA and Marbling. His mother stems from the longstanding Eileen cow family.
- He ratioed a 103 coming off the cow this past fall, and accelerated towards a year where he improved to a 106 YWR, we think the heritability of his growth will be strong.

- Look at the extreme curve bending growth pattern that TR Sonic Boom 3116L brings to the table, seldom will you see cattle ranking in the elite top 1% for weaning and top 3% yearling weight traits, yet this one even spreads to top 15% for calving ease too. A very impressive combination that nominates him to a new league when it comes to a herdsire prospect that will generate profits for producers that sell calves in the fall.
- His real-world growth indicators tell a similar story, with a very sensible 80 lb. birth weight, he was still able to return to the weaning pen heavy, recording a 121 WWR with his 723 lbs. of pay weight. He hasn't slowed down with maturity either recording just shy of 3.5 lbs. of growth per day while on test.
- Another positive indicator was his 4.17% IMF measurement, this ranked high among his contemporary group as he received a 126 IMF ratio.

- A derivative of the proven Deer Valley Growth Fund from a very productive daughter of BUBS Southern Charm AA31 that should help any outfit meet their pay weight goals and capture top dollar value at their progressive livestock market of choice.
- 3471 made it to weaning with nearly 700 lbs. of pay weight to ratio 104 and to offers a ratio on IMF of 119 to indicate he should sire some good feeding cattle with premiums attached at harvest.
- He ranks in the top 10% for Claw, the top 20% for CEM, the top 25% for \$W, WW, and DMI.

- Schiefelbein Goldfinger 60 sires a son that offers a curve-bending blend of numeric values to fit most short lists on sale day!
- He is a 102 weaning weight ratio herd sire prospect with a 105 ratio for IMF.
- 3277L is in the top 4% for \$M, the top 10% for \$W, and in the top third for \$AxH, \$AxJ, \$C, and \$G.
- This big bodied, big-ended stud also charts in the top 5% for Doc, the top 15% for WW, HP, Claw, and Angle, and the top 20% for CED and YW.

- The cattle by TR MA Lexicon 7001E have been a consistent mainstay at the TR. They are noted for their calving ease and low input management.
- This maternal grandson of the legend, S A V Final Answer 0035 ratioed 102 at weaning and measures with a 14.4 REA to ratio 102.
- He is without a doubt a heifer-safe candidate as he charts in the top 2% for CED, the top 5% for BW, the top 15% for SC, the top 20% for Milk and DMI, and the top 25% for RADG, and CEM as well.

- An "Iconic" son from a very good "Dually", "1682" sired dam from the original matron, TR Ms Katinka 3208N.
- He would be one of the best in the Angus offering in terms of his performance ratios as he should be one to sire cattle that will grow fast, harvest with premiums, and leave a set of maternal legends for the program he is introduced to.
- For dollar index drivers he is in the top 10% for \$G, the top 15% for \$B, the top 20% for \$C and \$W, and the top 25% for \$F.
- His expected data is also noteworthy as he ranks in the top 2% for SC, the top 3% for WW, the top 4% for Marb, the top 10% for YW and MW, the top 15% for Doc, and the top 20% for CW.

- What a candidate to lead the Charolais bull offering. Here is a bull that is stout in his muscle pattern, deep middled, and proportionally balanced from end to end. He's a big-league herd bull.
- He has the pedigree worthy of a leadoff lot, being a son of TR CAG Carbon Copy 7630E ET, and comes with the maternal backing of a female that has garnered as much attention as any to come out of our program, the National Champion, Dory 6501. He would be a maternal sibling to several of highlights of the pasture and production sale.
- He is a maternal brother to the CAG Clear Vision 2634K AI prospect that sold to NextGen Cattle Company in the 2024 National Charolais Sale in Denver.
- He should be on most short lists in Harrold on sale day.
- Top 20% BW, CE, MILK.

**LOT 138 TR C&S BADGE 1538 311TW**

- TR C&S Badge 1538 311TW is smooth in his design and carries himself with class. He will certainly catch your attention in the pens.
- These LT Badge 1538 PLD sons will impress most Charolais enthusiasts.
- If you're looking to improve carcass merit in your herd, he is a breed leader for REA EPD. He too backs up the science with a top five ranking in the offering from scan day with his 15.36 inch<sup>2</sup> REA.
- Top 2% SC, top 20% REA.

**LOT 139 TR BADGE1538 3635L**

- This sire group is certainly stamped, and 3635L fits the type. He carries eye appeal and muscle shape on a well-built skeletal structure.
- A 120 weaning ratio showcases this bull's power potential.
- Growth and carcass improving genetic figures.
- Top 15% SC, top 25% REA, top 35% WW.

# Watch the Sale on CCI.live!

*The best, the fastest and most  
comprehensive marketing & bidding tool!*

## How to Bid Online...

- **As a buyer**, you do not need an account or to login to watch the sale but you must have a validated account to bid.
  - After you are logged in, you must proceed to the sale page for any and every auction and click **"Get Buyer Number."** Some auctions require a pass-code to obtain a buyer number even after you are approved by CCI.live. Pass codes generally come from the sale manager or ranch for that particular sale.
  - CCI.live will operate with ease on a **cellular device, laptop, desktop or tablet.**
- A **modern or current browser** is important and will make your experience better. You do not need to install the app on cellular devices to watch a sale. CCI.live is a browser-based application meaning it will play on most new browsers, but you can also download the CCI.live app at the Apple App Store or through Google Play.
- **For successful bidding you must have good Internet service!** It is very important to be stationary. If you are driving and bidding, expect to have some service issues. If you are stationary on a good device, with healthy Internet, expect a very successful bidding environment. If you have slow Internet watch the "asking price" on the screen - it is real time and refresh your browser if you feel like you have some lag.
- **Support line open during all sales. 405-400-9505** - Please contact the ranches for invoices and trucking.

**SALE CATALOG, VIDEOS,  
and LIVE BROADCAST...**  
all at your fingertips from the sale page at  
[www.CCI.live](http://www.CCI.live)! Watch live sales weekly!

**www.CCI.live**  
(405) 400-9505 Text or Call  
[schedule@cci.live](mailto:schedule@cci.live)  
Over 35 years in livestock marketing!

3.0	76.7	114.1	18.5	56.7	-0.10	-0.076	0.87	104.7	70.1

- While the Simmental division may be small this year the quality of stock is high! We lead off with this baldy, S&S TMAS The Candidate 3040L. The direct son of JSUL Something About Mary 8421 stems from a headlining act from the Schaeffer Simmental program, JS Flirt Away 52H. 52H is a daughter of the legendary JS Flirt A-Way 59Y donor and is a full sister to the triple crown winning, "Boot's" that was campaigned by Bloomberg and worked for Griswold.
- This purebred herd bull prospect is big in his pieces, with a large circumference of foot and bone, heavy and dense muscle shape and round body cavity.
- He came very acceptable in his birthweight, and will add growth from not only his genomic package but his opportunity to provide hybrid vigor to a British based cowherd.

- Leading off the red hided Simmental division in style is DKSAM Sam 315L. This purebred will be a favorite of those that opt for ruggedness and mass, in a good looking, smooth package. Regardless of color, this is high quality beef.
- His maternal pedigree aligns the best in the business, with the presence of several legends in W/C Relentless 32C, Miss Werning KP 8543U, MR HOC Broker and Hara's Hairietta.
- A great option for those looking to power up a set of Red Angus or Hereford based cowherds.

- 1BBC Mr Mulberry 317 is the leading calving ease option for those who are seeking a Simgenetic bull, yet he still offers favorable average daily gain predictions and a triple digit yearling weight figure. He flipped from a 69 lb. birthweight to over 730 lbs. at weaning.
- The son of ERKS Mulberry 9918 goes back to a beautiful profiling red hided female that was purchased out of the Werning program as a bred heifer.
- This red hided stud ranks top 20% for BW and top 30% for CE.

# The Red Angus

# BULLS

Below you will find the data averages for the Red Angus bulls. We have provided the Red Angus breed-wide average as well as the average of the data of the Thomas Ranch bulls presented in this offering.
